Dear Karen,

This November's election provides Democrats an opportunity to break the historic hold that the other Party has had on Onondaga County government. I truly believe that we are up to the challenge and that the Democratic message of responsive, thoughtful, fiscally responsible government can prevail on Election Day.

I applaud the commitment you have made to your community by running for office and am pleased to offer my support in the form of a contribution to your campaign fund which is being sent separately.

As you enter the final weeks of this campaign season, I want to extend personal best wishes to you and your family during what is sure to be a stressful, but rewarding time.

On to victory,
